

Annual Report 24

All In
4 Inclusion

Reflection Vision

Rosie is not defined by her special needs. Her epilepsy and cerebral palsy are merely chapters in a much larger storybook. Rosie is funny, vibrant, and adventurous. She also happens to be a huge Peppa Pig fan! So when Made4Me fabricated custom steps to help Rosie get in and out of her family vehicle, Peppa Pig adorned the sides. For her caretakers, the steps are a very helpful tool to make life a little easier. For Rosie, the steps symbolize much more. The purple and pink staircase represents a path toward independence. Rosie had an “I Can” moment. Suddenly the world felt accessible, and when she turned and asked her mom if they could go more places now, the answer was simply, “yes, we can”.

Mom...

Can we go more places now?

In 2024, Made4Me created over **180 adaptations** to help enhance the lives of **families** like Rosie's. We supported 6 schools to create more inclusive learning environments, implemented a service learning program with over 35 special needs individuals volunteering in our shop weekly, in service to their community, and our community of volunteers grew to over 300 people. Without our volunteers and our supporters, this work is not possible. So much good is happening, and as we look ahead to 2025, the evolution of our service is clear. **In 2025, Made4Me is all in 4 inclusion!** What does being ‘all in’ look like? We will expand our work in community spaces, ensuring that adaptive devices are accessible to our families. Because until everyone feels a sense of belonging in our community, inclusion does not exist. Thank you for being a part of everything we have achieved, and the impact we will make going forward, together.

All In 4 *2025* Inclusion

What does 'All In 4 Inclusion" look like? M4M is launching a new collective impact project called **SPARC, Specialized Program for Adaptive Recreation in Communities**. In 2025, By establishing intentional partnerships with mission aligned community organizations, M4M will provide adaptive equipment to local community centers while also coordinating therapist led activities designed for individuals with special needs. Our 2025 impact goals:
